# PROCESS DEVELOPMENT ENGINEER

## WHO ARE WE LOOKING FOR?

As a Process Development Engineer, you'll play an essential role in optimizing and scaling up our production processes. With the R&D team, you'll drive process innovation to deliver efficient, consistent and high-quality cultivated seafood.

### Key Responsibilities

- Develop and scale-up cell culture and bioprocessing techniques for cultivated seafood production.
- Design and conduct experiments to enhance process efficiency and quality.
- Collaborate with cross-functional teams to integrate new technologies.
- Identify and resolve process issues for smooth, efficient operations.
- Analyze data to support process validation and regulatory submissions.
- Keep up with industry trends and advancements in bioprocessing to drive ongoing improvements.
- Ensure safety, quality, and compliance in all process development activities.

### Qualifications

- Master's degree in Chemical Engineering, Bioprocess Engineering, Biotechnology, or a related field.
- 3+ years of experience in process development, ideally in bio or food tech.
- Strong understanding of cell culture and bioprocessing technologies.
- Proven experience scaling-up bioprocesses from lab to production.
- Expertise in data analysis & statistical tools.
- Collaborative and adaptable in a fast-paced, cross-functional team.

## WHERE?

Leuven, Belgium

## WHO ARE WE?

Fishway is a visionary food-tech company dedicated to creating cultivated fish (biomass) of fish cells with the same nutritional value as a traditional fish fillet. Our work combines cutting-edge science and sustainable solutions to protect marine ecosystems. We're looking for a talented Process Development Engineer to join our innovative team and help lead the future of seafood production.

## WHY JOIN US?

- Contribute to sustainable food innovation
- Work with a passionate team
- Professional development
- Collaborative work environment
- Competitive salary and benefits

## HOW TO APPLY?

If you are excited about the opportunity to contribute to the future of sustainable seafood, we would love to hear from you!

Please send your resume and cover letter with your relevant experience and why you are interested in joining to [info@fishway.fish](mailto:info@fishway.fish).
